EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to the Applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Mr. Geza C. Ziegler, Jr., Attorney for Applicant, on September 6, 2006. The Examiner called Mr. Ziegler at the telephone number that appears in the declaration signed by the Applicant(s). (See MPEP § 408.)

2. The application has been amended as follows:

IN THE CLAIMS:

In claim 12, line beginning *than*, change "time detection" to --detection time--.

In claim 17, line 4, change "highest" to --greatest--.

In claim 17, line 6, change "lowest" to --smallest--.

In claim 17, line 9, change "highest" to --greatest--.

In claim 17, line 11, change "lowest" to --smallest--.

In claim 20, line beginning *threshold*, after "indicated", insert --;-- (semi-colon).

In claim 20, final line, delete "." (period, second occurrence).

Allowable Subject Matter

3. Claims 12, 14, 15, and 16-22 are allowed. The claims have been renumbered for printing to be claims 1, 3, 2, and 4-10.

Response to Arguments

4. The prior Office action, mailed May 25, 2006, objects to the claims. The Applicant's arguments and changes in RESPONSE AFTER FINAL REJECTION, filed August 23 2006, have been fully considered with the following results.

5. With respect to objection to those claims needing clarification, the changes entered by amendment provide clear descriptions of the claimed subject matter. Accordingly, the objections are removed.

6. Because newly presented claim 22 recites substantially the limitations of claim 18, only cursory further review was needed to put the application in condition for allowance. Accordingly, the deficiency under 35 CFR 116(b)(3) has been waived and the amendment has been entered.
